

To the members of the Arbeitsgemeinschaft Dermatologische Forschung (ADF)

### **Program of the AG Experimental Dermato-Oncology 2018**

Wednesday, March 7th, 14:30 - 18:00 h, Room Cape Town, World Trade Center Zürich,  
Leutschenbachstrasse 95, CH-8050 Zürich, [www.wtc-zurich.ch](http://www.wtc-zurich.ch)

**14:30 Welcome Address**

*Thomas Tüting, Magdeburg*

**14:35 Development of antigen specific immunotherapy against melanoma consisting of Ad5-GTY and MVA-PMTP heterologous prime-boost vaccination in combination with TRP1 targeted CD4+ T cell transfer**

*Naveen Shridhar, Magdeburg*

**15:00 DAMP molecules and innate immune cell counts differentially predict response to melanoma immunotherapy**

*Mirko Gries, ... , Christoffer Gebhardt, Mannheim/Hamburg*

**15:25 Interactions of 2A-DUB/MYSM1 in transcriptional circuits with potential prognostic value in human melanoma**

*Christina Wilms, ... Martina V. Gatzka, Ulm*

**15:50 Short Break**

**16:20 SMAD signaling promotes melanoma metastasis independently of phenotype switching**

*Eylül Tuncer, ... , Lukas Sommer, Zürich*

**16:45 A Drosophila melanogaster model for melanoma drug screening.**

*Manfred Kunz, Leipzig*

**17:10 Experimental modeling of melanoma and immune cell interactions using genome engineering**

*Michael Hölzel, Bonn*

**17:55 Concluding remarks**

*Thomas Tüting, Magdeburg*
