## DEAR COLLEAGUES AND FRIENDS,

We warmly welcome you to the 51<sup>st</sup> Annual Meeting of the Arbeitsgemeinschaft Dermatologische Forschung. This year, we have received 284 abstracts out of which we have chosen 30 for oral presentations based on the recommendations of the reviewers. In addition, speakers of three *Quo Vadis Lectures* will present up-to-date topics highlighting novel avenues for future research.

As in previous years, we have a number of awards to give to outstanding scientists. The prize winners of the two main ADF Awards, the *Egon Macher Award* and the *Paul Langerhans Award* will present their work. Additionally, the ADF/ECARF Award, awards for Dermato-Oncology and Translational Research Awards as well as one award specifically dedicated to Atopic Dermatitis research will be given this year. We are grateful to all foundations and supporters to enable the ADF to award these prizes.

The posters should be presented during the entire meeting to allow for vivid discussions during the ADF meeting. All oral presentations will also be exhibited as posters to facilitate informal interactions. During *the poster sessions*, *poster walks* will be organized focusing the discussion on specific themes. The best posters nominated by the poster committee will receive a poster award at the end of the meeting.

We are looking forward to this year's workshop, which is devoted to „*Tissue-resident immune cells in chronic inflammation*“. Additional highlights of this year's annual meeting are the *Guenter Goerz Memorial Lecture* and the *Guest Lecture*, which will be given by Enno Schmidt (Luebeck) and Dario Neri (Zurich), respectively.

The ADF steering committee would like to thank the local organizers for their outstanding preparation of the meeting. We are looking forward to hearing your latest work at what we hope will be an enjoyable, informative and memorable ADF meeting in Berlin.

Thank you all for your participation and for your contribution to this meeting!
